

Mums Raising Boys

- up to the age of 12 years

However well-prepared mothers are logically, the emotional response to having a boy is often still, 'Wow! This is unknown territory.' It is true that for many mothers, the idea of raising a son carries its own set of worries.

As the primary female role model in a boy's life, mothers play an important role in the development of their son's identity including their ability to be nurturing. This in turn affects how they relate to others, particularly to girls and women.

This workshop will discuss:

- The importance of the mother-son relationship
- What boys need from their mums
- Practical ways to improve and maintain a positive and rewarding relationship
